

TELAID'S PROVEN PROCESS: THE SECRET TO YOUR SUCCESS

Your project is mission-critical. That's why companies have relied on Telaid for expert technology integration and optimization since 1981.

Telaid's seven-step Proven Process is the result of thousands of successful client projects. It ensures that together we evaluate each project optimally, assign the right resources and execute with precision and effectiveness. Whether handling a nationwide multi-location rollout, or beta testing a new technology in a particular region, Telaid's consistent application of our Proven Process ensures that your project is completed on time and on budget, every time.

UI: Partnership Evaluation

Perform mutual discovery

Verify value system alignment

WE ARE TELAID

Telaid has a consistent track record of delivering even the most complex technology projects on time and on budget. Since 1981, technology integrator, Telaid has served its clients by deploying excellence and exceeding expectations.

Flexible and resourceful, Telaid is a single provider of rapid deployments, cradle-to-grave technology solutions, wireless and physical security.

Lifecycle Solutions

Cradle-to-grave technology support to increase uptime, ROI

Telaid offers cradle-to-grave support of your IT infrastructure, wireless networks and physical security assets.

Rapid Technology Deployment

Zero Defect deployment services that reduce time, task, cost and risk

Telaid's Zero Defect Model and Proven Process reduce time, task, cost and risk associated with technology deployments.

Physical Security

Solutions to help you protect your people, property and business

Telaid is your IT and physical security partner, leveraging our expertise in both to help you secure all your assets.

Wireless Networks

Spot-on wireless networks to meet your business needs

Telaid has the in-house expertise to design, deploy and support the right wireless network to achieve your business objectives.

Get cost effective, cradle-to-grave support today.
